DERMALOGICA

BioSurface™ Peel	R690 (60min)
------------------	--------------

Experience the power of BioSurface™ Peel, a powerful new skin resurfacing system from the skin health experts at Dermalogica and The International Dermal Institute. It helps reduce acne, pigmentation and signs of premature ageing to reveal smoother, brighter and softer skin.

The BioSurface™ Peel is designed to work with the skin's chemistry, not against it. When performed by a certified skin care professional, it safely removes dull outer layers of skin and helps the skin underneath regenerate for a smooth, radiant complexion. A minimum of 3 treatments are recommended to see visible results.

NIMUE

35% Glycolic Treatment

R585 (60min)

An active skin rejuvenation treatment. Indicated for environmentally damaged, hyperpigmented and problematic skin. The Glycolic deep exfoliation provides controlled and predictable removal of skin cells, to improve the texture and appearance of the skin. This treatment is recommended in weekly or two weekly courses of 6 – 12 treatments
Add Hyaluronic Acid +R85

7.5% TCA Treatment

R585 (60min)

An active skin rejuvenation treatment. Indicated for environmentally damaged, hyperpigmented and problematic skin. The bio-active complex in combination with 7.5% TCA is applied to the skin for a superficial peeling effect resulting in a radiant, smoother texture and lightning of pigmentation. Specifically suited for problematic skin. This treatment is recommended in weekly or two weekly courses of 6 – 12.

Bio-Lacto & Tetra Enzymatic Exfoliating System Treatment

R595 (60min)

The advanced treatment peeling system is indicated for the hyperpigmented skin classification. The selection of active ingredients facilitates superficial peeling. This treatment is recommended in a course of 6 – 12 cumulative treatments done at 2 to 4 weekly intervals depending on the condition of the skin.

Penta-Salaic & Tetra Enzymatic Exfoliating System Treatment

R595 (60min)

The advanced treatment peeling system is indicated for the problematic (acne and acne prone conditions) skin classification. The selection of active ingredients facilitates superficial peeling. This treatment is recommended in a course of 6 – 12 cumulative treatments done at 2 to 4 weekly intervals depending on the condition of the skin.

MicroNeedling Treatment

R4200.00 (6 x 60min)

A Specialised rejuvenation treatment. Indicated for a wide range of skin conditions including sun damaged skin, lines and wrinkles, uneven texture, superficial acne scarring and to restore volume, elasticity, tightness and plumpness. The roller consists of very fine 1mm needles on a plastic roller with a handle. Multiple treatments are required to achieve the desired result as the treatments have a cumulative effect and can be done weekly and monthly as per the Nimue treatment programme.
